

Test #002 — AI Digital Growth Apprentice

Role

Projecting Success Ltd — Level 4 AI & Automation Practitioner.

Strong/direct evidence

Sales and business development.

Salesforce CRM.

Email marketing and lead generation.

Prospect/company research.

Customer and client relationships.

Campaign-performance and lead monitoring.

Financial-services commercial experience.

Relevant learning

AI training was recognised as relevant learning, not professional AI/automation implementation experience.

Development gaps

Practical AI automation/workflow implementation.

Automation platforms and integrations.

HubSpot.

Practical AI implementation in business processes.

AI/data governance in workplace implementation.

Evidence of measuring automation outcomes.

Result

Version 2 shifted the emphasis toward AI automation, CRM, marketing and workflow implementation while preserving the evidence-based classification rules.
